

***Cable-integrated Measuring Tapes
produced on Paper***

Cable-integrated measuring tapes produced on paper ***BSA cable-integrated measuring tapes*** ***solve longitudinal measuring problems***

The cable-integrated measuring tape produced on paper correspond DIN 6740 / 41

- very low length tolerances
- tested and accepted by the Office of Conformity
- problem-free processing without special technical equipment
- makes time-consuming verification unnecessary
- can also accommodate manufacturer's name, country of origin and year.

Make-up:

Basis:	paper, natron
Gauge:	DIN: 006/007 010/011
Width:	6 mm (standard)
Printing	Ground: natron, with black units and divided into m-, dm and 5 cm. Additional printing, e.g. manufacturer's name, year of production, upon request.
Run lengths:	it depend on material thicknes, Rolls with various lenghts ex.: 0-1000m, 1000-2000m and so on
Length accuracy:	$\pm 1 \text{ }^{0/00}$ (Office of Conformity tested)
Core:	30 mm Ø plastic core
